REQUEST FOR QUOTES

Please provide a quote for a consulting service to facilitate a consensus building decision making process involving businesses in the uMbilu industrial area and relevant Municipal departments.

The issue is the traffic congestion brought about by the increase in the numbers of heavy duty vehicles servicing new logistics developments in the area. Should you be interested to quote a briefing document will be provided outlining the issues.

The main area of focus is Sydney Road between Alan Paton Road and Franks Avenue and the associated traffic flows.

The objective is to gain a shared understanding of the nature of the problem and to investigate solutions that are both practical and enjoy general support.

The task will involve contacting the companies (with administrative support from the EDU), facilitating a forum of company and municipal representatives and additional interaction with stakeholders as time may permit. Recognising that the extent of the service may be limited by the budget, the end point should at least be a process direction that can be carried forward by the stakeholders themselves.

The total price has to be less than R30.000 including VAT Despite the

Please submit your quote, inclusive of:

- Central Supplier Database registration number
- Hourly rate
- Price including VAT

Yours Sincerely

Gary Cullen
